

Test Plan – SauceDemo

Shofia Atika Nadhira

1. Introduction

SauceDemo is a web-based e-commerce demo application used to practice software testing. This project focuses on validating the application's core user flows, including authentication, product browsing, shopping cart, and checkout.

2. Test Objectives

Testing dilakukan untuk:

- Memastikan fungsi utama aplikasi berjalan sesuai expected behavior
- Mengidentifikasi defect pada fungsi dan user flow yang diuji
- Memastikan defect yang telah diperbaiki dapat diverifikasi melalui retesting
- Memastikan perubahan tidak menyebabkan regression pada fungsi terkait
- Mengevaluasi usability dan konsistensi UI pada scope yang ditentukan

3. Scope

In Scope:

- Login
- Product Listing
- Product Sorting
- Product Detail
- Shopping Cart
- Checkout
- Logout

Out of Scope:

- API testing
- Performance Testing
- Security penetration testing
- Database testing
- Mobile application testing
- Payment gateway integration

4. Testing Types

Untuk project ini:

- Functional testing
- Positive testing
- Negative testing
- Exploratory testing
- UI testing

5. Test Environment

Item	Environment
Application	SauceDemo
OS	macOS
Browser	Google Chrome
Browser Version	Version 152.0.7977.82
Device	Laptop
Network	Wi-Fi

6. Test Data

Data	Value
Valid Username	standard_user
Valid Password	secret_sauce
Invalid Username	Invalid test data
Invalid Password	Invalid test data

7. Entry Criteria

Testing dapat dimulai apabila:

- Aplikasi dapat diakses
- Test environment tersedia
- Test account tersedia
- Scope testing telah ditentukan
- Test scenario dan test cases telah disiapkan

8. Exit Criteria

Testing dianggap selesai apabila:

- Seluruh planned test cases telah dieksekusi
- Hasil PASS/FAIL telah didokumentasikan
- Defect yang ditemukan telah dilaporkan
- Defect yang tersedia untuk retest telah diverifikasi
- Regression testing pada area terdampak telah selesai
- Test Execution Report telah dibuat

9. Deliverables

- Test Plan
- Test Scenarios
- Test Cases
- Test Execution Report
- Exploratory Testing Report
- Bug Report
- Jira Defect Report
- Test Evidence/Screenshots

10. Risks and Mitigation

Risk	Impact	Mitigation
Demo application unavailable	Testing blocked	Document availability issue and resume when accessible
Test data unavailable	Some scenarios cannot be executed	Use available demo credential/test data
Browser compatibility issue	UI behavior may differ	Perform testing on defined supported browser
Defect blocks subsequent testing	Test execution delayed	Mark dependent cases as Blocked and report the defect

11. Test Schedule

Activity	Status
Test Planning	Completed
Test Case Design	Completed
Test Execution	Completed
Exploratory Testing	Completed
Bug Reporting	Completed
Retesting	Not Applicable
Regression Testing	Not Applicable
Test Summary	Completed
